

# C-19 PAS ASSESSMENT

(PRECAUTION ASSESSMENT SURVEY)

## ENSURE SAFETY OF YOUR EMPLOYEES AND GUESTS

SGS IS THE WORLD'S LEADING INSPECTION, VERIFICATION, TESTING  
AND CERTIFICATION COMPANY.

WHEN YOU NEED TO BE SURE

**SGS**

SGS is recognized as the global benchmark for quality and integrity. With more than 94,000 employees, we operate a network of more than 2,600 offices and laboratories around the world.

SGS- C-19 PAS (Precaution Assessment Survey) assess and rates the Precautionary activities adopted by an organization to prevent and control spread of COVID- 19 through their business.

This program is specifically designed for Hospitality Industry and food establishments to scientifically evaluate the precaution taken against COVID-19, effectiveness of disinfection, and create a safe work place and thereby safe products and services to your clients

### **BENEFITS:**

1. Access the level of compliance in regards to local municipality and WHO guidelines
2. Build strong level of confidence among your guest
3. Streamline your process of establishing precautions for COVID-19
4. Benchmarking Best Practices for your organization
5. Ensuring safety of employees and guests
6. Easily report precautionary measures to Local Municipality during Inspections

The result of on-site assessment is combined with Surface Swab for Microbiological analysis, Surface swab for Instant- ATP on-Site Testing, Air and water sample analysis at the state-of-the-art microbiological laboratory at SGS facility are provided to meet the global standards

### **ASSESSMENT CRITERIA:**

The assessment is a combination of requirements issued by regulatory authorities and WHO which will be correlated with test results of onsite sample collected to ascertain cleaning efficiency.

### **REGULATORY REQUIREMENT:**

Provisional Guidelines for Food Establishments in Dubai Edition 4 Version 2 Published on 5 May 2020 by the Food Safety Department of Dubai Municipality.

Operational considerations for COVID-19 management in the accommodation sector Interim guidance 31 March 2020. (World Health Organization guidelines). Guidelines for testing for Cleaning efficiency and environmental hygiene.

The assessment will be performed on an online platform (iAuditor) with instant results which can be shared with your customers or Local Municipalities
