Shopping malls

We are recognized as the global benchmark for quality and integrity. With more than 94,000 employees, we operate a network of more than 2,600 offices and laboratories around the world.

SGS-Disinfection Efficacy Inspection & Testing Services will scientifically evaluate the cleanliness, sanitation and disinfection efficacy of all types of buildings, factories, hotels, warehouses, malls, hospitals, schools, vehicles etc.

Expectations on quality when comes to disinfection and sanitation is becoming a problem in many parts of the world as the trade and travel connects people all over the globe and the risk of contagious diseases spreading in a short span of time.

SGS Gulf offers a complete range of services from inspection, evaluation and testing on the efficacy of disinfection, sanitation and cleanliness of hard surfaces that's not visible to the naked eye. Periodic visits on the premises, sample collection, qualitative and quantitative microbiological testing services on-site and at the state-of-the-art microbiological laboratory at SGS facility are provided to meet the global standards. We also provide Technical Support Services and recommendations on cleaner products to ensure effectiveness and quality.

Our global expertise can help reduce the risks and improve efficiency of disinfection to ensure compliance to contractual and regulatory biosecurity requirements in all your properties and vehicles.

WHEN YOU NEED TO BE SURE

SGS

PROCESS FLOW
