

SAFETY INSPECTION & TESTING

IS YOUR SANITIZING TUNNEL SAFE?

**SGS IS THE WORLD'S LEADING
INSPECTION, VERIFICATION, TESTING
AND CERTIFICATION COMPANY.**

With SGS inspection and certification you can now be sure if the sanitizing tunnel you have deployed is effective in disinfecting and sanitizing the guests or visitors into your premises, while at the same time is safe as per the regional requirements.

A schematic inspection, sampling and laboratory testing of the samples will be carried out on a periodic basis along with the validation of the documents of the disinfectant used and its compliance with the regional requirements
